Overview

For the investment reporting, we are presenting reports generated directly from the trust institutions rather than a manual spreadsheet. Short term investments and checking account transactions occur with PMA/BMO Harris and long term investments are held with MBS/Pershing and Fifth Third Securities. This strengthens internal controls by providing source documents about our investments to the Board of Education.

The 2018-19 Fiscal Year Cash Flow Statement reflects a slight change in the classification of available cash balance. The Working Cash Fund balance represents funds available to either be temporarily moved to another fund via interfund transfer, or permanently transferred via an abatement. As such, it can be considered unrestricted and available and will not be deducted from the available cash.
